EDUCATION

- **Madan Mohan Malviya University Of Technology**
Bachelor of Technology - Information Technology; GPA: 8.97
Courses: Digital Logic, Data Structures, Algorithms, Artificial Intelligence, Networking, Databases
- Gorakhpur, India
Sept 2023 - Sept 2027

SKILLS SUMMARY

- **Languages:** Python, C, C++, JavaScript, SQL
- **Frameworks:** Node.js, Express.js, Bootstrap, Tailwind CSS, EJS
- **Tools:** VS Code, Git, GitHub, Postman, MongoDB Atlas, Chrome DevTools
- **Platforms:** Web, Windows, Arduino (basic)
- **Soft Skills:** Teamwork, Time Management, Writing

EXPERIENCE

- **Hacktoberfest**
Open Source Contributor
 - **Front-End Contributions:** Contributed to 5+ GitHub repositories using JavaScript, HTML, and React.
 - **Bug Fixes and Components:** Resolved 15+ frontend bugs and implemented 5 reusable components, improving UI responsiveness and reducing user error reports by 30%.
 - **Hack-To-Fiesta – IIIT Lucknow**
Hackathon Participant
 - **Grievance Tracker MVP:** Built and deployed the Saathi Grievance Tracker MVP in 36 hours with a 4-member team.
 - **Performance Optimization:** Integrated REST APIs and optimized frontend rendering, reducing load time by 40% and enabling 200+ user sessions without crash.
 - **EDC – IIT Delhi**
Campus Ambassador
 - **Outreach and Promotion:** Promoted EDC events across campus, increasing engagement by 100+ students.
 - **Campaign Impact:** Led outreach across 5+ departments, increasing registrations by 40% and recognized as a top-performing ambassador.
- Remote
Sep 2024
- Lucknow
Jan 2025
- Remote
Jan 2024

PROJECTS

- **Mock AI Interview – AI-Powered Interview Platform:** Apr 2025
 - **Overview:** Developed a mock interview platform with real-time speech-to-text transcription and dynamic question generation.
 - **Tech Stack:** Next.js, React, PostgreSQL, Tailwind CSS, Clerk, Google Gemini API
 - **Key Features:** Voice capture, live transcription, secure login via email/social auth
 - **Impact:** Achieved 85% transcription accuracy; onboarded 50+ users in MVP testing phase.
- **Saathi Grievance Tracker – AI Grievance Portal:** Mar 2025
 - **Overview:** AI-enabled grievance platform with integrated voice assistant and status tracking dashboard.
 - **Tech Stack:** Next.js, Python, Tailwind CSS, Node.js
 - **Key Features:** Voice-enabled chatbot, mobile-responsive UI, live status tracking
 - **Impact:** Used by 100+ users; reduced average complaint resolution time by 40%.
- **Wanderlust – Travel Listing Web App:** Jul 2024
 - **Overview:** Full-stack platform for discovering and listing travel stays with dynamic filters and CRUD functionality.
 - **Tech Stack:** Node.js, Express.js, MongoDB, Bootstrap, JavaScript
 - **Key Features:** Location-based search, user profile management, secure sessions with Connect-Mongo
 - **Impact:** Reduced page load time by 35%; handled 150+ listings in prototype.
- **Kalasettu – Cultural Event Management Platform:** Jun 2024
 - **Overview:** Event hub for browsing and registering for cultural fests and workshops.
 - **Tech Stack:** React, Node.js, Express, MongoDB
 - **Key Features:** Admin dashboard, event filtering, RSVP-based registrations
 - **Impact:** Engaged 200+ users during MVP launch; enabled real-time attendance tracking.

CODING PROFILES

- LeetCode – Solved 500+ DSA problems(Max Rating: 1626)
- GeeksforGeeks – Solved 200+ coding problems
- CodeChef – 2* (Max Rating: 1580)
- Codolio – Different Profiles

CERTIFICATIONS

- GenQuiz-IIT Bombay
- Games of Code-4th Position
- ByTegram Hackathon
- PepShe Star Program
